

IT ALL STARTS WITH YOU THE CUSTOMER

We work with you from initial concept through the design and completion of your self-storage, or RV/Boat Storage project.

Combined with our experience, our supply partner relationships and our own crews we bring your idea to reality efficiently and on budget.

WE WORK WITH YOU

Forge will work with you from the beginning to the end to design, supply and install a facility you can be proud of.

We can assure you that every step of the process is met with confidence, pride, and quality of performance. Our teams of experienced erectors work quickly and professionally on even the most complex project.

Our #1 goal is not to build one project for you the customer, but to do so repeatedly, long term relationships, based on trust, and how we execute your plans.

SYNERGY

Our team works closely with you on your project every step of the way. We track progress and are always in communication with you to make sure your project stays on track for completion.

WE PUT YOU FIRST

We offer both full contracts and labor only contracts. Our rates are reasonable, our standards of work are exceptional. Contact us today on our website or call us for a free quote.

AHEAD

ENDLESS POSSIBILITIES

Since FORGE Building Company, LLC opened for business, we have been designing and erecting quality buildings across the United States. Owners Hamish Bell and Hayden Farrell have nearly three decades combined experience in pre-engineered steel construction. Forge specializes in self-storage facilities (single and multi-story). Our project experience includes fish hatcheries, car washes, airplane hangars, RV Storage and 2010's self-storage new facility of the year winner, Daffodil Storage. <image below>
