

## SELF STORAGE SINGLE-STORY BUILDINGS

Looking to build a single-story self storage facility? Forge Building Company delivers expert steel construction tailored to your site and your investment goals.

Our team specializes in designing and constructing both climate-controlled and non-climate-controlled units, giving you the flexibility to serve a wider range of tenants and maximize profitability.

Whether you're developing a new facility or expanding an existing one, we'll help you design an optimized site layout, including a unit mix that maximizes rentable space and profitability.

With decades of experience and a focus on quality craftsmanship, our team ensures every project is delivered on time and built to last.

### WHY CHOOSE FORGE?

- Custom site plans that maximize space and profitability
- Proven expertise in steel building construction
- Durable, low-maintenance materials
- Timely project delivery with exceptional service
- Designed to increase your return on investment
